

Sprint 2 Retrospective

Mon, 14 Sept 26

Doc Site Format Review

- Auto-import converts files to MD, but headings don't convert cleanly
 - Manual editing required after each upload
 - Sprint 2 planning meeting upload flagged as an example of the formatting issue

HTML Uploads for Privacy Policy

- Question raised: can HTML files be uploaded to the doc site?
- Decision: keep privacy/terms pages on the existing website, but also add them to the doc site
 - Try uploading the HTML files directly first
 - If that fails, send the files over to be converted to Markdown manually

Sprint 2 Issues Noted

- Live Logger form loses all data if user navigates away before confirming
 - Proposed fix: auto-save form state when user leaves the screen
- Intermittent white element appearing on screen (top right); seen before, cause unknown
- New account flow doesn't prompt user to add or join a team
 - App just blurs out dashboard and other options with no explanation
 - Fix: add a popup or message saying "join or create a team to unlock features"
 - To be added to Trello

Sprint 3 and Submission Timeline

- Sprint 3 due: 29th September
- Submission deadline: 11th October (Sunday, 2nd week of October)
- Group presentations: 19th to 23rd October
- Sprint retrospective and group review documentation due dates on Moodle

Documentation and Tomorrow's Plan

- Uploading Sprint 1 and Sprint 2 retrospectives to the doc site
- Plan to finish documentation today; all good to go for tomorrow

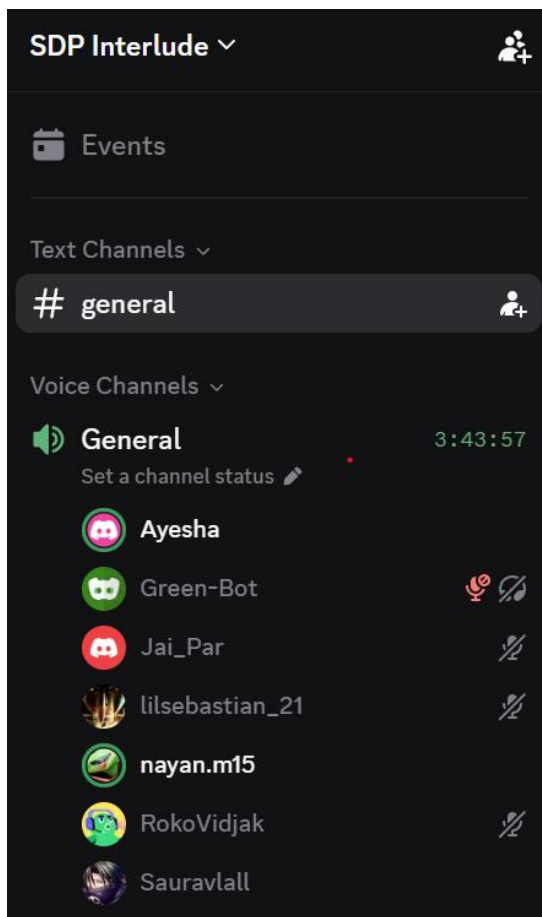

Next Steps

- **Attempt HTML file upload to doc site:** If upload fails, send the 2 files over to be converted to Markdown manually.
- **Add "join or create a team" prompt to sporting tool:** New account flow needs a message to unlock features when no team is joined.
- **Upload Sprint 1 and Sprint 2 retrospectives to the doc site**

Proof of Meeting:

Meeting commenced at 12:25 on 14/09/2026
